

Mining and Financial News

BY REVIEW LEASED WIRE

NEW YORK, April 8.—Pressure was directed against the more prominent stocks at the outset of today's brief session, neither issues as United States Steel and the better rails declining to lowest for the week. These losses were largely if not wholly relieved before the close, when a spirited demand for metals, especially the zinc shares, brought down a general reversal.

American zinc, the most active feature of the day made a new high record on its advance of five points to 95.24 and Butte and Superior, a stock of the same class, rose 3 to 95. Other active features again included the marines, which followed with irregular trend, Crucible Steel, Copper, such as Anaconda, Shattuck, Arizona and Tennessee, the motors International Nickel and United States Industrial Alcohol. Alcohol was the most erratic of all stocks.

Exchange on Paris fell to the new low rate of 602. The week's various financial undertakings probably show an actual loan expansion of almost \$20,000,000, a cash loss well in excess of \$20,000,000, and a decrease of almost \$25,000,000 in reserves, causing excess reserves to fall below \$100,000,000 as against \$154,000,000 in the first week of the year.

Today's bond market was steady with total sales par value of \$1,850,000. United States issues were variously higher and lower on call, during the week.

WEEKLY REVIEW.

NEW YORK, April 8.—External affairs were the features of absorbing interest during this week's dull and heavy trading, in which quoted values recorded variable declines.

Domestic news was somewhat conflicting, but mainly helpful, although leading trade authorities were plainly inclined to greater conservatism and the government's winter wheat report was quite the poorest in over a decade.

Two points stood out in the week's operations—the utter indifference of investment public toward the stock market as such, and the obviously professional tone of the dealings in speculative issues.

Coppers and kindred stocks made only feeble response to the unabated demand for those products, including large, foreign orders and United States Steel was heavy despite the significant announcement of an early advance in rail prices.

(By L. J. Overlock)

BOSTON, April 8.—The chief menace to the market is our relations with Germany. Even if we break with Germany the effect might be only temporary as industrial activity would probably be greater. While the technical position of the security market is strong, a forward movement is restrained by our position in Germany and Mexico. The market will in all probability fluctuate quickly and sharply until these adverse features are out of the way. Caution should be used and would only buy stocks on the breaks.

Spring.

the most delightful season of the year, but this cannot be said of the rheumatic. The cold and damp weather, brines on rheumatic pains which are anything but pleasant. They can be relieved, however, by applying Chamberlain's Liniment. Obtainable everywhere. (Advertisement.)

ICELAND GROWS RICH.

COPENHAGEN, March 30.—Iceland was one of the poorest countries in the world before the war, but it has made great wealth during the past year. Most of the fortunes have been made by merchants exporting fish and game, wool and hides to England. Such unprecedented sums have been deposited in the banks of Reykjavik that bankers do not know how to invest their capital.

Iceland has imported great quantities of American goods during the war, but these have come through other countries. Icelanders, Icelanders now what direct steamship communication with the United States to promote reciprocal trade. Plans have been made for a steamship service between Reykjavik and Boston. Sailings are expected soon. Icelandic business interests are anxious for the appointment of a regular salaried United States consul. Great Britain and France are the only governments at present represented in Iceland by salaried consuls.

FRENCH REMEDY FOR STOMACH TROUBLES

The leading doctors of France have for years used a prescription of vegetable oils for chronic stomach trouble and constipation that acts like a charm. One dose will convince. Severe cases of years' standing are often greatly benefited within 24 hours. So many people are getting surprising results that we feel all persons suffering from constipation, lower bowel, liver and stomach troubles should try Mayr's Wonderful Remedy. It is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction. For sale by Bisbee Drug Co., Lowell Drug Co., Lowell, Arizona, and all other reliable druggists. (Advertisement.)

BULGARIANS ACCUSED OF BOLD BRIGANDAGE

Serbian Government Issues Statement Regarding Occupation of Serbia.

CORFU, Greece.—(Correspondence of The Associated Press).—A long statement issued by the official Serbian Bureau gives some alleged instances of the manner in which the Bulgarians are pacifying the portions of Serbia which they now occupy. "We are able," says the statement, "to give information received from a reliable source regarding the manner in which the enemy, especially the Bulgarians, are ill-treating and attempting to exterminate the inhabitants of Old and New Serbia."

"Brigandage is general. Germans and Bulgarians are ravaging one another in looting. Soldiers are billeted on the inhabitants without payment and in spite of all protests. Several towns have been desolated by looters, Sopleje, for example can no longer be recognized. Houses have been destroyed or dismantled, all the woodwork having been seized and given to the troops for fuel."

"In Old Serbia the inhabitants have suffered in the most inhuman manner. After having all their goods looted by the soldiers, their wives and daughters are violated. In a village near Sopleje, two soldiers who had violated a young girl were killed by the inhabitants. All the inhabitants were held responsible for the alleged crime and had to answer for it."

"Serbian wounded soldiers who were found on the field of battle or in hospitals and whose condition indicated that long and careful treatment would be necessary were pitilessly finished off. In some districts large numbers of inhabitants, particularly priests and school masters, were notified that they were to be sent to Sofia. It is generally believed that not one of them arrived in Sofia but that they were all massacred by the way. It has come a common saying whenever anyone suddenly disappears to say that he has 'gone to Sofia.' As the hospitals are all lacking sanitary equipment, the Bulgarians announced some time ago that the wounded would be sent to Sofia. It is believed that they have all been killed."

"There was a massacre among the students at Sopleje. Practically all the inhabitants of Old Serbia who had settled in New Serbia have been killed, together with many natives of that district, by order of General Voyadjev and his son, the Perfect of Bitoli."

SAYS U. S. SHOULD MAKE ITS NITROGEN

Senator A. J. Gronna.

A. J. Gronna, United States senator from North Dakota, says the government should immediately establish a plant for the extraction of nitrogen from the air. Nitrogen is absolutely necessary for the manufacture of powder, and the nitrate beds in the world are in Chile.

CONSUMPTION OF FERTILIZERS IS SMALL IN FRANCE

PARIS, March 30.—(Correspondence of The Associated Press).—The consumption of fertilizers in France diminished 1,750,000 tons during the year 1913-14 as compared with the year 1912-13, according to statistics collected by the minister of agriculture. This is taken as accounting largely for the ten per cent discount in the total crops of uninvaded districts. Potash fertilizers of which 125,000 tons were used in 1913-14 came from Germany, and the consumption went down last year to 5,000 tons. The linseed mills of Southern France, tempted by higher prices obtaining in Switzerland, Norway and England, exported linseed oil cake in preference to filling local contracts for 10 to 12 francs per ton. France also exported 60,000 tons of superphosphates during the last ten months of 1915, while at the same time she imported 220,000 tons of nitrates as growing against the average of 280,000 tons. It is estimated that for the crops now being raised there have been used 155,000 tons of fertilizer as against the usual requirements of 425,000 tons, resulting in a situation that is rather alarming since the soil of France, productive as it is has absolute need of fertilization.

Monsieur Jules Meline, minister of agriculture, has already assured the full operation of the factories producing phosphates, and also has succeeded in bringing from Algeria raw materials in sufficient quantities. There still remain two great difficulties, the exaction of dealers and the difficulty of transportation. Sulphate of soda

has gone up 80 per cent, sulphate of ammonia 70 per cent, superphosphates 125 per cent, scoria from dephosphoration 60 per cent, nitrate of soda, which comes from Chile, is cheaper than before the war, yet it has gone up in France from 30 to 100 kilos in July, 1915 to 44 francs at the present time. Linseed Oil refiners demand much higher prices for oil cake, but the government has intervened and required them to fill all their contracts in France at the contract prices before filling export orders at higher prices. In a debate on this subject in the chamber of deputies, it was proposed to authorize the minister of agriculture to make a complete census of all stocks on hand of fertilizers ready for use and of all materials that enter into their composition, and to requisition them for the benefit of agriculture in case it becomes necessary.

ORDINANCE PASSED.

CHICAGO, April 8.—The city today passed an ordinance closing restaurants where liquor is sold at 1 a. m. the same hours as saloons.

Legal Notices

NOTICE FOR PUBLICATION.
Department of the Interior,
U. S. Land Office at Phoenix, Arizona, April 7, 1916.

NOTICE is hereby given that Cassie A. Downard, of Bisbee, Arizona, who, on May 12, 1913, made Homestead Entry, No. 022420, for SW 1/4 NE 1/4, SW 1/4 NW 1/4, Section 32, Township 23, S., Range 24, E., G&SR Meridian, has filed notice of intention to make final Three Year Proof, to establish claim to the land above described, before J. D. Taylor, U. S. Commissioner, at Bisbee, Arizona, on the 15th day of May, 1916.

Claimant names as witnesses: George R. Pemberton, of Don Luis; John C. King, of Lowell; Frank C. McDonald, Abbott Adair, both of Bisbee, Arizona.

NOTICE OF APPLICATION FOR U. S. PATENT.
Mineral Survey No. 3236.

Serial No. 029712.
United States Land Office, Phoenix, Arizona, March 10th, 1916.

Notice is hereby given: That Joseph Waters, whose post-office address is Bisbee, has made application for patent for the following named lode mining claims, situated in the Warren Mining District, Cochise County, Arizona, in Section 10, unsurveyed, T. 23-S., R. 24-E., G. & S. R. B. & M., and described as follows, to-wit:

"BELGIUM". Beginning at corner No. 1, the S. W. corner, whence U. S. M. M. No. 4, Warren Mining District, bears N. 42° 53' E. 600 feet to corner No. 2; thence S. 44° 4' E. 1500 feet to corner No. 3; thence S. 42° 53' W. 600 feet to corner No. 4; thence N. 44° 4' W. 1500 feet to corner No. 1, the place of beginning, containing a net area of 20,631 acres. "THE ALLIES". Beginning at corner No. 1, the S. W. corner, whence U. S. M. M. No. 4, Warren Mining District, bears S. 31° 34' W. 595.6 feet; thence N. 42° 53' E. 600 feet to corner No. 2; thence S. 44° 4' E. 1102.5 feet to corner No. 3; thence S. 42° 53' W. 600 feet to corner No. 4; thence N. 44° 4' W. 1102.5 feet to corner No. 1, the place of beginning, containing a net area of 13,488 acres, expressly excluding area in conflict with the Hardscrabble lode, unsurveyed, of 1,676 acres.

The location notices of these claims are recorded in the County Recorder's office, Cochise County, Arizona, as follows:

Belgium, Book 54, Record of Mines, page 58.

The Allies, Book 54, Record of Mines, page 57.

The names of the adjoining claimants to this survey are: on the North, Germany and Waters lodes, unsurveyed; on the East, Hardscrabble lode, unsurveyed; on the South, Billy Boy and Juniper lodes, unsurveyed; on the West Survey No. 2202, Jumbo and Delima lodes.
